Web Development: Basic HTML, CSS, JavaScript

Projects

A TO Z SERVICES – Service Booking & Management Platform

- Developed a web-based platform for booking local services such as electrician, plumber, AC repair, vehicle services, and home maintenance.
- Designed responsive customer and admin dashboards for managing service requests and customer enquiries.
- Integrated EmailJS to send booking confirmations, enquiry details, and service notifications directly through email.
- Built the application using HTML, CSS, JavaScript, Firebase, and EmailJS with a mobile-friendly user interface.

Personal Portfolio Website

- Designed and developed a responsive personal portfolio website to showcase skills, projects, certifications, and achievements.
- Built using HTML, CSS, and JavaScript with a modern, mobile-friendly, and user-friendly interface.
- Included resume download, contact information, and project showcase sections.
- Optimized for mobile devices and seamless cross-platform navigation.

Certifications

- **Cloud Certificate:** Network Technician
- **Cloud Certificate:** Linux Unhatched
- **Cloud Certificate:** Cloud Foundations
- **Cloud Certificate:** Machine Learning for Natural Language Processing
- **Cloud Certificate:** Cloud Operations

Hackathon

Participated at Blazer Trail 2.0 – Industrial Safety Alert

- Developed an AI-based industrial safety monitoring system that detects whether workers are wearing helmets using computer vision.
- Implemented real-time alerts for safety violations, helping improve workplace compliance and reduce accident risks.
